### Introduction:

Astrology is one of the ancient Sastras of the world. It is only the oldest one among the sciences. It is not the subjects like Mathematics, Physics and chemistry which require only common sense and simple Logical think to understand these subjects easily. But astrology is an occult science and imperceptible. It requires inducement. When Ayurveda is a upa Vedha, Astrology becomes the eyes of the Vedha. The ancient saints considered the knowledge of astrology is a very important branch of the Vedha tree. And it is the root to predict the future of the individual. Astrology is the science that explains the influence of the planets and it is a divine subject of stars and luck shown by them to the life of an individual.

The great people of the western countries like Johannes Kepler, Bekkan, Pythagoras and other eminent astrologer's are the pioneers of astrology. Mr. Dante expresses that "the highest, the noblest and with out any defect". So "Astrology is consummate and an excellent phenomena". Astrologers from Babylon were called Kasdim / Kasdin (Chaldeans) in the Book of Daniel. In rabbinic literature, the term Chaldeans later was often used as a synonym with those who practiced astrology. In pre-modern Hebrew, astrology was known as hokmat ha-mazlot, "the science of the constellations". Newton had intrest in mathematics and astronomical researches.

By knowing the adverse effects of their future life, how can they avoid the unfavourable thinks happen? This type of independent thinking and improved knowledge will help them to overcome the negative or malefic effects in their life. The belief in Astrological science helps the mankind in their moral and financial progress and it is considered as more than that of the real science. There is a system of medical astrology which helps the mankind to keep their health in a good condition. There are many people who don't have belief in the actions of the planets. Still there are thousands of people say that astrology is superstition. They laugh at it, blame it and have no patience. But they will not have guts to neglect the advice of an astrologer.

Plenty of Stars

Is it possible for us to count the sand in the river and the stars on the sky?

Constituents of Myth.

We can't count the wives of Arjuna and the stars in the sky.

Darkness - Aphotic

We should know some proverbs related to astrology and Planets

**Moon:**

Thousand stars added together, will not become the Moon

If even thousand stars combined together will not be equal to the Moon. The decision taken by thousand fools may not be equal to the decision of a single intelligent person. That becomes true by the bright Moon.

**Jupiter in 3<sup>rd</sup> house** - When the transit of Jupiter was in 3<sup>rd</sup> house, all the warriors of Dhuryothana's army died as 'war Heros'. So, this kind of action should be avoided when Jupiter is in 3<sup>rd</sup> house while on transit. When the Jupiter was in Janma Rasi during tansit Lord Rama with his wife Sita, happened to go to forest for 14 years. When the Jupiter in Janama Rasi, he gives all troubles to the native like separation, trouble in the family, getting success in the foreign land.

**If Jupiter aspects there will be crores of benefit to the native:** The placement of Jupiter spoils that house where it sits. The house which gets the aspect of Jupiter definitely flourish. Jupiter represents Gold. Jupiter takes 12 years to come around the zodiac. But, Mercury comes around the Sun 4 times a year. Because, Mercury is very near to the Sun and Jupiter is far off from the Sun and so it is very easy to see Jupiter.

- **No one has lived a better life for thirty years and none has lived a worst life for thirty years.** We can see Jupiter, but not Mercury. Before the invention of telescope, an astronomer was worried that 'he is going to die' without seeing the planet Mercury.
- **The things couldn't do by the day, will be done by the Planets** and if it was not done by the Planets, it will be done by our family God successfully. Family God has the power to do all things that you wish. Family God looks after us like our parents. In some cases people go to other countries in search of their lively hood, stay there for more years and forget about their family God and their children never come to know about the whereabouts of their family God. As such they are unable to worship the same.
- **The man, who wastes his sperm, will suffer a lot.** The karaka for sperm is Venus for men and when he becomes debilitated the production of sperm is less and there starts the problem. So, when Venus gets debilitated in the 6<sup>th</sup> house of kala Purush and the native becomes sick.

"Young (Kutty) Venus will spoil the family"

The main period of Venus is not considered as good at the younger age. The natives born in the constellations of Barani - Poorvapalguni - Poorvashada the 1<sup>st</sup> dasa will start with Venus dasa. Next comes the main period of Ketu. The native born in the constellations of Aswini - Magha - Moola the Venus dasa becomes stars of Sampath Thara or Dhana Thara. In astrology Gulika is called as Kutty (small). Ravan wanted all planets in the horoscope of his son Indrajit in a strong manner. So, he ordered all planets to be in their strong and best places in Indrajit's horoscope. Listening to his order, Saturn sat in his exalted sign, Libra. Devendra thought that, if Indrajit becomes immortal, there will be more problems to Devas. So, Devendra asked Saturn to change his place in the horoscope. But, Saturn was afraid of Ravana and tried to have some other idea. Once, Goddess Parvathi to make Lord Vinayak as her guard collected all her sweating dirt and made him as his son. The same way, Saturn tried and made Gulika from his sweating dirt and made him to sit in the sign Scorpio. Scorpio is the Ayul Bhava of (8<sup>th</sup> house, house of longevity) Kaala purush. Thus, Saturn made affliction to the longevity of Indrajit. Till today in Kerala, astrologers are using Gulika / Mandhi for the calculations of Ayurdhaya and for analyzing the chart for proper remedies.

If Gulika combine with kalthira karaka Venus in a male chart, he will have lots of sufferings due to his wife. If an exalted lord aspect some other exalted lord then there will be no way to beg in the native's life. But if debilitated lord aspect some other debilitated lord, then the native is lucky enough to get Raja Yoga. These rules may not work out every where. The planets are divided into two teams. One of which belong to the team of "grace", headed by Deva Guru - Jupiter and the other team of "affluence", headed by the foes to the Gods - Asura Guru Venus. No.1 team consists of 4 planets - The Sun, The moon, Mars and Jupiter. No.2. team consists of the 3 planets - Venus, Mercury, and Saturn. In the Jupiter team, only Mars and Jupiter will have the chance of becoming debilitated and aspect each other. In the Venus team there is no planet to get debilitated and look upon each other. In the same team if 2 planets at the same time get debilitated and aspect each other and in their main / sub periods they confer Raja Yoga. This rule is applicable only to the planets Mars and Jupiter in the (Deva Guru team) Grace Team. There is no chance for the other team to have this debilitated position. Especially for Mercury and Venus there is no chance for them to be opposite (7/7) position as they always move together in the Zodiac.

At this stage, the two planets of opposite teams and big enemies the Sun and Saturn have this chance of aspecting each other and at their main / sub periods they don't confer good results, if there is no connection with benefic Planets. This will affect the karakathuvras of both these planets. So, here the aspect of 2 debilitated planets, wouldn't work out. In this dasa, and in an auspicious sub - period with respect to the ascendant, the native will have an appearance of anger by one's look or words. Some times they become a hoodman.

**Saturn:**

- It is said that on every Saturdays we should have oil bath. On Monday to Friday we give more work to our Brain. To get it cool all men should have oil bath with gingely oil. That is good for our health.
- It is better to give money to oil vendor instead of paying fee to Doctor by taking oil bath.
- Saturn is the lord of Ayurdhaya. A man who dies on Saturday will take away one more body from this world along with it.
- When Saturn confers things, no one can stop him from giving it.
- When Saturn in the 8<sup>th</sup> house in transit, will not allow the native to wear even his inner wear. The native will have that much suffering during this period when transit Saturn is in Ashtamabava.
- The native will be trapped during the transit of Saturn in the 8<sup>th</sup> house.
- Saturn gives trouble, as such when the native suffers from cold.
- Saturn in the Janma Rasi duringtransit the native will meet with humiliation, equivalent to nose cut.
- Saturn in the 5<sup>th</sup> house during transit will make the native to fly like a cotton pieace.
- Saturn in the 6<sup>th</sup> house during tansit the native will be crowned.
- Saturn in the 2<sup>th</sup> house during tansit the native will have two family lives.
- The troubles given by Saturn is equivalent to the troubles while he was in Janma Rasi.
- Saturn is reffered as sadness and obstructions.
- The aspect of Saturn makes the temple tower to a hut and makes a hut to a temple tower.
- The aspect of Saturn makes a small house to a multi-storied building and vice-versa.
- Saturn hora is considered as the best hora, for paying back the out-standing loans
- You cannot get a good day like Wednesday. It is considered as more than a golden day. The Sun and Mercury are always traveling together in the zodiac. Both travel in a distance of 28° and there is no dosha of combustion for Mercury. When both combine together forms Budha-Adhithya Yoga.
- There is no one gives like Rahu (Dragon's head).Dragon's head is a shadowish planet and it is considered as very strong one. If Rahu is in a good position in a horoscope, confers more gold and wealth. At the same time if it is in a bad position then it never hesitate to make the native to stand at the end of the street. When you delinate some wealthiest persons horoscope, you will find that in the main period of Rahu, he must have reached to the top level of his life.
- Though the king of the planetary kingdom is the Sun, Rahu becomes powerful and superior to the Sun due to, solar eclipse.

This is not true. Moola means root, bottom portion. This is a medical proverb. A male tree root has herbal medical effect which cures and makes a man strong. But, the female tree root is not too strong, and cause destruction. That was the real truth and the above said astrological proverb is not true.

The real meaning of this proverb is "Moola comes in the Tamil month of AANI will rule the kingdom. i.e. if the native is born in the star of Moola in the month of AANI (June,July) and the Jupiter aspect the Moon and when a good dasa / bukthi arise, then he get the chance of ruling the kingdom. If in a house first born is a male child, then three female child, fourth one is male in moola and the 5<sup>th</sup> one is female will live happily. 5<sup>th</sup> male child also will live happily. 7<sup>th</sup> female child will die and the 8 child will be the cause of the destruction, and the 10<sup>th</sup> male will become a fool. Virtue will make you grow Poorvashada. Poorva ashada means, heading towards the success. So, they will fight for the success. Poorva Shada - trouble for Mangalya is wrongly understood. #### **The Proverb about this**

There is another saying that, it is lucky to have death on the thithi “Ekadasi” and the cremation on “Duvadasi.” Fasting on ekadasi is very good. This day is the day when Goddess Lakshmi married to Lord Maha Vishnu. On duvadasi people end the fasting and pray Lord Vishnu. On that day they eat the food with Sesbania grandiflora (edible leaves) and Indian gooseberry. Lord Krishna was born on the day of Ashtami thithi. Lord Rama was born on the Navami thithi. We are all celebrating these days as auspicious days. But, at the same time we are not ready to celebrate some or other functions on these days. Because we think that these days are inauspicious days. Why is this confusion?

Jothda Rathina. Dr. K.P.Vidhya Dharan.

Generally these days are considered as inauspicious. But, in Navarathiri this Ashtami, navami days, Sri Rama Navami and Krishnashtami are considered as auspicious. On these days 8, 17, 26 the native can do anything, though these days fall on Ashtami. Because, these numbers match to ashtami, the 8<sup>th</sup> thithi of the fifteen (15+15 = 30 thithi's) thithi's. The same way no 8 is represented by Saturn. So, the people born in Capricorn and Aquarius signs can perform any auspicious functions. The people who have strong Saturn (as a ruler or exalted) in their Chart too can perform auspicious functions on these days. The Navami is the 9<sup>th</sup> thithi. So, 9, 18, 27 number people can perform auspicious functions on this Navami day. As Navami is ruled by Mars, the Aries and Scorpio sign natives can perform any auspicious functions. The people who have strong Mars (as a ruler or exalted) in their Chart too can perform auspicious functions on these days.

There is a saying by our ancestors that the things done in the Ashtami, Navami Thithis will not succeed. Why? This was said so, because those actions performed will prolong and will not come to an end. We may happen to continue to do those actions for a long time. Lord Krishna suffered a lot from his day of birth, as he was born on Navami thithi. As he is the Avathar of God, he could manage all his troubles.

As Lord Rama Was born on Navami, he happened to leave the throne and went to forest along with his beloved wife. Afterwards, as we all know, he met with many problems.

Even God has all these problems; we men should avoid conducting auspicious functions and actions (house warming ceremony, procuring, registering properties and any other important functions. etc.) on these days. But, on this thithis we can perform Divine activities (Deeksha, Chanting Mantraas, doing Homaas. etc) with out any hesitation. More over the following things can be done in these two thithis. To set fire in brick kiln, to file a suit on enemies, to use the arms (like gun.etc), to attack on our enemical countries.

- It is not auspicious to do things in the thithis Ashtmi and Navmi.
- We should do cremation of the body on Dhuvathasithithi, when a man dies on Ekadhasi.
- We should avoid doing things on the death thithis of our parents.
- The people die on the 1<sup>st</sup> and 2<sup>nd</sup> day of the Tamil month “thai” will reach the high abode.(heaven,Moksha).

**Conclusion:**

There are some people have belief in astrology, some have no faith in this subject. But, these astrological proverbs have reached both this category of people. Astrology is derived from stars, signs and logically explained from vedhas. It is said to be the eyes of vedhas. Some say astrology is called as the “messages from the stars”. No intelligent brain can deny, how the total influence of the planets affect the native, his body condition, mind's ability, myth, religious thoughts and desires etc. Astrology we should not get confused with death, devilry and palmistry. It is the configuration of our past karma and the prediction of the future is designed by our birth chart with the current planets position at the time of our birth.
